### H Form For Private Households

**To the Head (or Acting Head) of the Household.**  
Please complete this form and have it ready for collection on Monday 26th April. If you need help, do not hesitate to ask the enumerator.  
The enumerator may ask you any questions necessary to help him to complete or correct the form.

The information you give on the form will be treated as CONFIDENTIAL and used only for compiling statistics. No information about named individuals will be passed by the Census Office to any other Government Department or any other authority or person. If anyone in the census organisation improperly discloses information you provide, he will be liable to prosecution. Similarly you must not disclose information which anyone (for example, a visitor or boarder) gives you to enable you to complete the form.

The legal obligation to fill in the whole form rests on YOU, but each person who has to be included is required to give you the information you need. However, anyone who wishes can ask the enumerator or local Census Officer for a personal form which can be returned direct to the enumerator or local Census Officer and then you need answer only questions B1 and B5 for that person.

**PLEASE TAKE NOTE**  
There are penalties of up to £50 for failing to comply with the requirements described above, or for giving false information.  
When you have completed the form, please sign the declaration at the foot of the last page.

# CUSTOMER DATA AND GEODEMS

- Customer data is only part of the story
- Purchasing decisions are still predicated on affluence and lifestage
- In many cases customer data only provides basic demographics

## NEW SUPPLIER PROCESS

# SIX KEY CONSIDERATIONS FOR USING BIG DATA

# SIX KEY CONSIDERATIONS FOR USING BIG DATA

1

**DO WE HAVE CORRECT PERMISSIONS FOR USE?**

2

**ARE THERE BARRIERS TO OBTAINING OR PROCESSING THE DATA?**

3

**CAN WE LINK DATASETS? WHAT ARE THE CONNECTORS?**

4

**CAN WE LINK TO AN ADDRESS?**

5

**ARE THERE SUFFICIENT BASIC DEMOGRAPHIC VARIABLES?**

6

**IS THERE INHERENT BIAS? HOW COMPLETE A VIEW IS IT?**

# SUMMARY – AND SOME PARTING THOUGHTS

- Geodemographics are still, and will continue to be, as relevant now as they were in the 1970s
- Further democratisation of data and expansion of Open Data is expected
- The volume of data collected by private companies will increase at an ever faster pace
- New opportunities for Big Data (and small data) to input into customer analytics and geodemographics should be embraced
- Privacy and compliance concerns may bring about more demand for anonymised aggregated data and sample-based surveys
- A return to focus on postcode geodemographics rather than individuals?
